Re: Karen Skeen

While on vacation with her daughter in Mexico earlier this week, Karen slipped and fell about 30 feet into water, breaking some vertebrae in her lower back. She underwent surgery in Mexico and has since been airlifted stateside to Jackson Memorial Hospital in Miami, FL. Jackson Memorial is home one of the best spinal care centers in the country.

Ricky and the rest of the Skeen family would like to thank each of you for your concern and prayers during this difficult time. Obviously, their attention at this time is on Karen, her treatment, and her recovery. The family will provide updates on Karen's condition at CarePages.com as information becomes available.

Please visit <http://www.carepages.com> to keep track of Karen's condition. You may also leave a note of support for Karen via the message board. CarePages does require that you create a free account in order to view her page.

Again, the Skeens appreciate your continued concern, prayer, and support during this difficult time.
